

HASCI Environmental Modification

4. How do I start?

There are two options for completing Environmental Modification Assessments from which the participant/legal guardian may choose:

1. The participant/family may choose to arrange their own waiver funded Environmental Modification Assessment and work with their Case Manager to procure the modification. See PDF 5. CM/Participant Directed Modification for more information.
2. The participant/family may choose to have the SCDDSN Professional Design Team (PDT) complete the modification specifications. See PDF 6. Professional Design Team Option for more information.

Your case manager will provide you with a copy of the Environmental Modifications Chapter from the appropriate waiver manual. You will be able to refer to this and ask questions of your case manager before deciding which option to choose.
